AKASH COLOUR

Akash Colour Industries was established in 2009, in a small rented unit in Jaysingpur, Kolhapur with a production capacity of 50 tons per month of cement base, water base & oil base paints, with the ambition to provide good quality products and service to the paint market. Within a year's span it was realized that the current production capacity was not fulfilling the market requirements, so a new unit with a production capacity of 300 tons per month was set up.

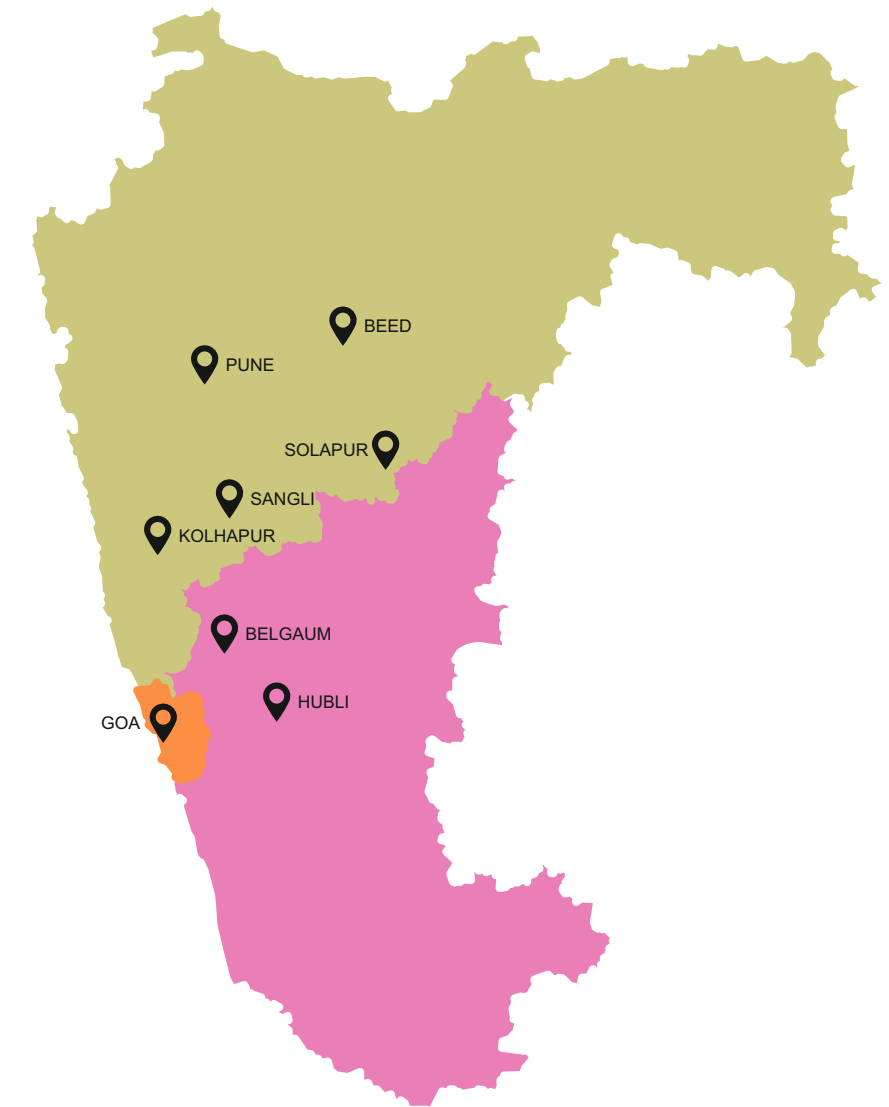

The fortunes of the company shined as in 2017 the Company got certified with an ISO 9001:20015 certification.

Our ability to combine high performance with elegance has led to a wide range of eye-catching paints that deliver clear, authentic to feel natural breath atmosphere. We continue to exceed our customers' expectations time & again by using only the highest & best quality raw materials in every product we manufacture. That commitment to quality is visible and durable wherever our Paint system is found.

We are committed to innovate the products required for today's Market. Our Company believes in change. We are continuously adding new and innovative range of products to improve the overall quality of all the products manufactured by us.

BRAND DISTRIBUTOR LOCATIONS
